OBJECTIVE

Second-year B.Tech student in Computer Science with Artificial Intelligence, seeking a Data Science / AI-ML internship to apply Python-based data analysis and machine learning fundamentals to real-world business problems while growing as an engineer. Shipped a retrieval-augmented chatbot with citations and an NLP career-matching platform during an IBM internship.

EDUCATION

B.Tech in Computer Science with Artificial Intelligence	2025 ? 2029 (Expected)
TKM College of Engineering, Kollam (APJ Abdul Kalam Technological University)	CGPA: 9.2
Class XII (CBSE)	2025
Loyola School	94%
Class X (CBSE)	2023
RMD International School	90%

INTERNSHIP EXPERIENCE

IBM SkillsBuild Academic Internship ? AI Automation & Intelligent Solutions	2026 ? Present
6-week Virtual Internship (Ongoing)	
? Undertaking a structured 6-week virtual program on AI automation and intelligent solutions, covering practical applications of AI concepts and tools.	
? Building NexaPath, an AI career-copilot for Tier-2/3 India, applying program concepts to a production-style codebase.	

PROJECTS

RAG Campus Assistant	Python · FastAPI · ChromaDB · sentence-transformers · SSE
? Retrieval-augmented chatbot answering campus questions strictly from institutional PDFs, with numbered inline citations.	
? Full pipeline: PDF extraction ? overlap chunking ? MiniLM embeddings ? cosine search ? greedy-MMR diversification; token-level streaming via Server-Sent Events.	
? Pluggable LLM layer (Groq / OpenAI / Ollama) with retrieval-only fallback; ships with a 20-test pytest suite.	
NexaPath ? AI Career Copilot	Python · NLP · TF-IDF · Flask
? Career-copilot platform for Tier-2/3 India built during the IBM SkillsBuild internship; TF-IDF + cosine-similarity matching aligned to SDG 4/8/10.	
Synth-Vision ? Gesture Interfaces	Python · OpenCV · MediaPipe
? Real-time hand-tracking interface manipulating physics-based UI elements purely through gestures; expanding into a MediaPipe + pynput desktop-control app.	
Early Python Builds	Python
? Console games (Hangman, Quiz, Number Guessing), a to-do list app with file handling, and a CLI calculator with input validation ? the foundation layer of my Python fundamentals.	

TECHNICAL SKILLS

Languages	Python, C/C++, JavaScript
Libraries / Data	Pandas, NumPy, Matplotlib, scikit-learn
Core Concepts	Data Structures & Algorithms, Data Analysis, ML fundamentals
Computer Vision	OpenCV, MediaPipe, real-time tracking
Backend / Web	FastAPI, Flask, Node.js, REST APIs, SSE streaming
Tools	Git/GitHub, Jupyter, pytest, ChromaDB, Arduino

CERTIFICATIONS

? Programming, Data Structures and Algorithms using Python ? NPTEL, IIT Madras
? AI Automation & Intelligent Solutions ? IBM SkillsBuild Academic Internship
? Getting Started with Generative AI ? Credly Verified Badge
? Make Agentic AI Work for You ? Credly Verified Badge
